SAFETY DATA SHEET

This safety data sheet complies with the requirements of Regulation (EC) No. 1907/2006, as amended.

SECTION 1. IDENTIFICATION OF THE SUBSTANCE / MIXTURE AND OF THE COMPANY / UNDERTAKING

1.1 Product identifier
   : DEWALT Trak-It Fuel Cell
   
   Product Code(s) :
   : None assigned.

1.2 Relevant identified uses of the substance or mixture and uses advised against
   
   : Fuel cell for gas combustion tools.
   Use pattern: professional use.
   Restriction on use: None known

1.3 Details of the supplier of the safety data sheet:
   
   DEWALT Industrial Tool Co.
   Richard Klinger Str. 11
   D-65510, Idstein, Germany
   Website: www.DEWALT.eu or www.dewalt.com/anchors
   Email: reply@DEWALT.com
   Telephone :
   : +1 (352) 323-3500 (INFOTRAC - U.S.)
   Poisons Information Centre: +44 121 507 4123

1.4 Emergency Telephone Number
   
   : In case of transportation emergencies: +1 (352) 323-3500 (INFOTRAC - U.S.)
   Poisons Information Centre: +44 121 507 4123

SECTION 2. HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture
   
   Colourless gas. Mildly olefinic odor.

   Most important hazards: This mixture is classified as hazardous in accordance with Regulation (EC) No 1272/2008.
   Classification:
   Flammable gas - Category 1; H220
   Gases under pressure - Liquefied gas; H280

2.2 Label elements

   Hazard pictogram(s)
   
   Hazardous components which must be listed on the label: Propylene; 1-Butene.

   Signal word:
   DANGER!

   Hazard statements:
   H220 - Extremely flammable gas.
   H280 - Contains gas under pressure; may explode if heated.

   Precautionary statements:
   P210 - Keep away from heat, sparks and open flame. - No smoking.
   P377 - Leaking gas fire: do not extinguish, unless leak can be stopped safely.
   P381 - Eliminate all ignition sources if safe to do so.
   P410 + P403 - Protect from sunlight. Store in a well-ventilated place.
SAFETY DATA SHEET

This safety data sheet complies with the requirements of Regulation (EC) No. 1907/2006, as amended.

2.3 Other hazards

Other hazards which do not result in classification:
Burning produces obnoxious and toxic fumes. Vapours are heavier than air and may spread along floors. May be sensitive to static discharge. May polymerize on contact with catalysts, at elevated temperatures and pressure. Excessive inhalation of vapours can cause nasal and respiratory irritation, dizziness, weakness, fatigue, nausea, headache, possible unconsciousness, and even asphyxiation. In extremely high concentrations, product may act as an asphyxiant and cause increased breathing and pulse rates, fatigue and unconsciousness. Contact with liquid or refrigerated gas can cause cold burns and frostbite.

Environmental precautions:
Avoid release to the environment.

PBT assessment:
This mixture contains no substance considered to be persistent, bioaccumulating nor toxic (PBT).

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Substances
Not applicable

3.2 Mixtures

Chemical nature: Mixture - Hydrocarbon gases.

The following substances shall be indicated according to legislation:

<table>
<thead>
<tr>
<th>Chemical name</th>
<th>CAS #</th>
<th>EC No.</th>
<th>Concentration</th>
<th>CLP Classification</th>
</tr>
</thead>
<tbody>
<tr>
<td>Propylene</td>
<td>115-07-1</td>
<td>204-062-1</td>
<td>55.0 - 70.0</td>
<td>Flam. Gas 1; H220 Press. Gas</td>
</tr>
</tbody>
</table>

For the full text of the H and R phrases mentioned in this Section, see Section 2 or 16.

SECTION 4. FIRST-AID MEASURES

4.1 Description of first aid measures

Ingestion : Not an expected route of entry.

Inhalation: Move to fresh air in case of accidental inhalation of vapours. If breathing is irregular or stopped, administer artificial respiration. When symptoms persist or in all cases of doubt, seek medical advice.

Skin contact: Flush affected skin with gently flowing lukewarm water for at least 20 minutes. Cover wound with sterile dressing. Obtain medical advice.

Eye contact: Rinse immediately with plenty of lukewarm water, also under the eyelids, for at least 15 minutes. Get medical attention if symptoms persist.

4.2 Most important symptoms and effects, both acute and delayed

: Excessive inhalation of vapours can cause nasal and respiratory irritation, dizziness, weakness, fatigue, nausea, headache, possible unconsciousness, and even asphyxiation. In extremely high concentrations, product may act as an asphyxiant and cause increased breathing and pulse rates, fatigue and unconsciousness. Contact with liquid or refrigerated gas can cause cold burns and frostbite.

4.3 Indication of any immediate medical attention and special treatment needed

: Treat symptomatically.

SECTION 5. FIRE-FIGHTING MEASURES

5.1 Extinguishing media

Suitable extinguishing media

: Foam; Dry chemical; Water fog; Carbon dioxide (CO2).

Unsuitable extinguishing media

: None known.
SAFETY DATA SHEET

This safety data sheet complies with the requirements of Regulation (EC) No. 1907/2006, as amended.

5.2 Special hazards arising from the substance or mixture

- Extremely flammable gas
- Contains gas under pressure; may explode if heated.
- Vapours are heavier than air and may spread along floors. May be sensitive to static discharge. May polymerize on contact with catalysts, at elevated temperatures and pressure. The pressure in sealed containers can increase under the influence of heat.
- In the event of fire the following can be released: Carbon oxides.

5.3 Advice for firefighters

PPE
- Wear self-contained breathing apparatus and protective suit. Fight fire with normal precautions from a reasonable distance.

Special fire-fighting procedures
- Leaking gas fire: do not extinguish, unless leak can be stopped safely. Shield personnel to protect from venting or rupturing containers. Cool closed containers exposed to fire with water spray.

SECTION 6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

- Wear suitable protective equipment. Keep people away from and upwind of spill/leak.

6.2 Environmental precautions

- Do not allow material to contaminate ground water system. Discharge into the environment must be avoided.

6.3 Methods and material for containment and cleaning up

- Ventilate the area. Prevent further leakage or spillage if safe to do so. Remove all sources of ignition. Isolate the area until all gas has dispersed. Suppress (knock down) gases/vapours/mists with a water spray jet. Contact the proper local authorities.

6.4 Reference to other sections

- Refer to protective measures listed in sections 7 and 8. Refer to Section 13 for disposal of contaminated material.

SECTION 7. HANDLING AND STORAGE

7.1 Precautions for safe handling

- Use only in well-ventilated areas. Wear suitable protective equipment. Do not breathe vapours or spray mist. Avoid contact with skin, eyes and clothing. Keep away from heat, sparks and open flame - No smoking. Take precautionary measures against static discharges. Use only non-sparking tools. Do not puncture or incinerate containers. Keep away from oxidizing agents.

7.2 Conditions for safe storage, including any incompatibilities

- Store in cool/well-ventilated place. Keep away from heat. Keep away from direct sunlight. Inspect periodically for damage or leaks. Avoid damaging the cartridge. Store away from incompatible materials. Storage area should be clearly identified, clear of obstruction and accessible only to trained and authorized personnel. No smoking in the area.

7.3 Specific end use(s)

- Fuel cell for gas combustion tools.

SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

8.1 Control Parameters

</tbody>
</table>

Biological Exposure Indices:
No biological exposure limits noted for the ingredient(s).

8.2 Exposure controls

Ventilation and engineering measures
- Use only in well-ventilated areas. Apply technical measures to comply with the occupational exposure limits. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. In case of insufficient ventilation wear suitable respiratory equipment.

Respiratory protection
- Respirators may be used when engineering and work practice controls are not technically feasible, or when they fail and need to be supplemented. The filter class for the respirator must be suitable for the maximum expected contaminant concentration (gas/vapour/aerosol/particulates) that may arise when handling the product. If this concentration is exceeded, self-contained breathing apparatus must be used. The type of respiratory protection will depend on the conditions of use (see also EN 149).

Skin protection
- Gloves impervious to the material are recommended. The suitability for a specific workplace should be discussed with the producers of the protective gloves. The selected protective gloves have to satisfy the specifications of EU Directive 89/689/EEC and the standard EN 374 derived from it. Wear long sleeved shirt and pants to minimize exposed skin.

Eye / face protection
- Wear as appropriate: Tightly fitting safety goggles; Face-shield. See also EN 166.

Other protective equipment
- Other equipment may be required depending on workplace standards.

General hygiene considerations
- Do not breathe vapours or spray mist. Avoid contact with skin, eyes and clothing. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Remove and wash contaminated clothing before re-use. Handle in accordance with good industrial hygiene and safety practice.
SAFETY DATA SHEET
This safety data sheet complies with the requirements of Regulation (EC) No. 1907/2006, as amended.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

</tbody>
</table>

9.2 Other Information

- Volatiles (% by weight) : 100%
- Volatile organic Compounds (VOC’s) : No information available.
- Other physical/chemical comments : Absolute Pressure Of Container: 1800 kPa @ 50°C Critical temperature: 91.8°C (Propylene); 146.4°C (1-Butene).

SECTION 10. STABILITY AND REACTIVITY

10.1 Reactivity : Not normally reactive.
10.2 Chemical stability : Stable under normal conditions.
10.3 Possibility of hazardous reactions : May react on contact with incompatible materials, at elevated temperatures and pressure. Unstable with heat or contamination. Closed containers may explode with conditions of extreme heat.
SAFETY DATA SHEET

This safety data sheet complies with the requirements of Regulation (EC) No. 1907/2006, as amended.

10.4 Conditions to avoid: Direct sources of heat. Incompatible products Do not use in areas without adequate ventilation. Keep away from direct sunlight.

10.5 Incompatible materials:
- Oxidizing agents; Metal salts; halogens; Acids; Nitrogen oxides (NOx).

10.6 Hazardous decomposition products:
- In the event of fire the following can be released: Carbon oxides.

SECTION 11. TOXICOLOGICAL INFORMATION

11.1 Information on Toxicological effects:

Acute toxicity:
- According to the classification criteria of the European Union, this product is not considered as being an acutely toxic chemical.

Skin corrosion/Irritation:
- According to the classification criteria of the European Union, this product is not considered as being a skin corrosive or irritant.

Serious eye damage/irritation:
- According to the classification criteria of the European Union, the product is not considered as being an eye irritant.

Respiratory or skin sensitisation:
- According to the classification criteria of the European Union, this product is not considered as being an allergic respiratory sensitiser.
- According to the classification criteria of the European Union, this product is not considered as being an allergic skin sensitiser.

Germ cell mutagenicity:
- Contains no ingredient listed as a mutagen.

Carcinogenicity:
- Contains no ingredient listed as a carcinogen.

Reproductive toxicity:
- Contains no ingredient listed as toxic to reproduction.

STOT-single exposure:
- According to the classification criteria of the European Union, this product is not expected to cause target organ toxicity through a single exposure.

STOT-repeated exposure:
- According to the classification criteria of the European Union, this product is not expected to cause target organ toxicity through repeated exposures.

Aspiration hazard:
- According to the classification criteria of the European Union, this product is not considered as being an aspiration hazard to humans.

Toxicological data:
- There is no data available for this product. See below for individual ingredient acute toxicity data.

<table>
<thead>

</tbody>
</table>

Routes of exposure: Eye contact; Skin contact; Inhalation.

Effects of acute exposure:
- Inhalation: Excessive inhalation of vapours can cause nasal and respiratory irritation, dizziness, weakness, fatigue, nausea, headache, possible unconsciousness, and even asphyxiation. In extremely high concentrations, product may act as an asphyxiant and cause increased breathing and pulse rates, fatigue and unconsciousness.
- Skin contact: Not an irritant. Contact can cause cold burns, frostbite and/or chemical burns with severe skin damage. Symptoms of frostbite may include numbness, prickling and itching.
- Eye contact: Gas may cause mild irritation. Causes frostbite burns to eyes.
- Ingestion: Not an expected route of entry under normal conditions of use.
SAFETY DATA SHEET

This safety data sheet complies with the requirements of Regulation (EC) No. 1907/2006, as amended.

Potential Chronic Health Effects:
- Prolonged exposure may cause nasal irritation. Repeated or prolonged exposure may result in kidney effects.

Other important hazards:
- None known or reported by the manufacturer.

SECTION 12. ECOLOGICAL INFORMATION

12.1 Toxicity:
Avoid release to the environment. There is no data available for this product.

See the following tables for individual ingredient ecotoxicity data. Measured ecotoxicity data are not available for the aquatic toxicity endpoints for these gases. These chemicals are gases at standard temperature and pressure and are expected to partition primarily to air, therefore aquatic toxicity tests may not be relevant.

Ecotoxicity data:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

12.2 Persistence and degradability:
The product itself has not been tested. Contains: Propylene; 1-Butene. Propylene and 1-Butene are expected to be degradable.

12.3 Bioaccumulation potential:
The product itself has not been tested. Contains: 1-Butene; Propylene. 1-Butene has a Bioconcentration Factor (BCF) of 14, and its Log Kow value is 2.4, indicating its potential to bioaccumulate is low. Propylene has a Bioconcentration Factor (BCF) of 5, and its Log Kow value is 1.77, indicating its potential to bioaccumulate is low.

12.4 Mobility in soil:
The product itself has not been tested.

12.5 Results of PBT and vPvB assessment
This safety data sheet complies with the requirements of Regulation (EC) No. 1907/2006, as amended.

This mixture contains no substance considered to be persistent, bioaccumulating nor toxic (PBT).

12.6 Other Adverse Environmental effects
Contains: Propylene; 1-Butene.
Because of the relatively short half-lives of propylene and 1-Butene in the atmosphere and the low environmental concentrations typically found, their contribution to potential global warming can be considered minor. The ozone depletion potential of these substances is negligible.

SECTION 13. DISPOSAL CONSIDERATIONS

13.1 Waste Treatment Methods:
Handling for Disposal: Handle in accordance with good industrial hygiene and safety practice. Refer to protective measures listed in sections 7 and 8.
Methods of Disposal: Dispose of in accordance with the European Directives on waste and hazardous waste. Waste must be classified and labelled prior to recycling or disposal. According to the European Waste Catalogue, Waste Codes are not product specific, but application specific. Waste codes should be assigned by the user based on the application for which the product was used.

14.5 Environmental hazards: This product does not meet the criteria for an environmentally hazardous mixture, according to the IMDG Code. See ECOLOGICAL INFORMATION, Section 12.

14.6 Special precautions for user
SAFETY DATA SHEET

This safety data sheet complies with the requirements of Regulation (EC) No. 1907/2006, as amended.

Appropriate advice on safety must accompany the package. Keep away from heat, sparks and open flame - No smoking.

14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable.

SECTION 15. REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Classification according to Regulation (EC) No. 1272/2008 on the classification of hazardous substances and mixtures.

Authorisations
Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorisation, as amended: None of the components are specifically listed.

Restrictions on use
Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use, as amended None of the components are specifically listed.

Directive 2012/18/EU (Seveso III) on the control of major-accident hazards involving dangerous substances: None of the components are specifically listed.

Directive 98/24/EC on the protection of the health and safety of workers from risks related to chemical agents at work: None of the components are specifically listed.

Directive 94/33/EC on the protection of young people at work: None of the components are specifically listed.

This safety data sheet complies with the requirements of Regulation (EC) No. 1907/2006, as amended [including Regulation (EU) 2015/830].

15.2 Chemical safety assessment

A chemical safety assessment has not been carried out by the Manufacturer of this product.
# SAFETY DATA SHEET
This safety data sheet complies with the requirements of Regulation (EC) No. 1907/2006, as amended.
