# SAFETY DATA SHEET

## SECTION 1. IDENTIFICATION

**Product identifier used on the label:**

: **DEWALT TRAK-IT FUEL CELL**

**Other means of identification:**

: None assigned.

**Recommended use of the chemical and restrictions on use:**

: Fuel cell for gas combustion tool.

**Chemical family:**

: Mixture of: Hydrocarbon gases

**Name, address, and telephone number of the supplier:**

DEWALT Industrial Tool Co.

701 East Joppa Road

Townson, MD, USA

21286

Supplier's Telephone # : (800) 524 3244

24 Hr. Emergency Tel # : Chemtrec 1-800-424-9300 (Within Continental U.S.); Chemtrec 703-527-3887 (Outside U.S.).

## SECTION 2. HAZARDS IDENTIFICATION

**Classification of the chemical:**

**Most important hazards:**

Extremely flammable gas. May be ignited by open flames and sparks. May displace oxygen and cause rapid suffocation.

This material is classified as hazardous under U.S. OSHA regulations (29CFR 1910.1200) (Hazcom 2012) and Canadian WHMIS regulations (Hazardous Products Regulations) (WHMIS 2015).

**Hazard classification:**

- Flammable gas - Category 1
- Gases under pressure - Liquefied gas
- Simple asphyxiant

**Label elements:**

*Hazard pictogram(s)*

- Flame
- Cylinder

*Signal Word*

DANGER!

*Hazard statement(s)*

- Extremely flammable gas
- Contains gas under pressure; may explode if heated.
- May displace oxygen and cause rapid suffocation
SAFETY DATA SHEET

Precautionary statement(s)

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources - No smoking.
Leaking gas fire: do not extinguish, unless leak can be stopped safely.
Eliminate ignition sources if safe to do so.
Store in a well-ventilated place. Protect from sunlight.

Other hazards

Other hazards which do not result in classification None reported by the manufacturer.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

<table>
<thead>
<tr>
<th>Chemical name</th>
<th>Common name and synonyms</th>

<td>106-98-9</td>
<td>30.0 - 60.0</td>
</tr>
</tbody>
</table>

The exact concentrations of the above listed chemicals are being withheld as a trade secret.

SECTION 4. FIRST-AID MEASURES

Description of first aid measures

**Ingestion**: Not an expected route of entry.

**Inhalation**: Immediately remove person to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen by qualified medical personnel only. When symptoms persist or in all cases of doubt, seek medical advice.

**Skin contact**: Flush affected skin with gently flowing lukewarm water for at least 20 minutes. Treat for frostbite if necessary by gently warming affected area. Seek immediate medical attention/advice.

**Eye contact**: Rinse immediately with plenty of lukewarm water, also under the eyelids, for at least 15 minutes. Seek immediate medical attention/advice.

Most important symptoms and effects, both acute and delayed

Asphyxiant, can replace oxygen in confined area. Oxygen content in the area must not fall below 19.5% or harmful effects will result.

Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

SECTION 5. FIRE-FIGHTING MEASURES

Extinguishing media

**Suitable extinguishing media**

Dry chemical, foam, carbon dioxide and water fog.

**Unsuitable extinguishing media**

Do not use a solid water stream as it may scatter and spread fire.

Special hazards arising from the substance or mixture / Conditions of flammability

Extremely flammable gas Contents under pressure. Vapors are heavier than air and may spread along floors. May be sensitive to static discharge.

Flammability classification (OSHA 29 CFR 1910.106)

Flammable gas

Hazardous combustion products

Carbon oxides; irritating fumes and smoke.

Special protective equipment and precautions for firefighters

Protective equipment for fire-fighters
SAFETY DATA SHEET

Special fire-fighting procedures:
- Leaking gas fire: do not extinguish, unless leak can be stopped safely.
  - Move containers from fire area if safe to do so. If feasible, stop the flow of gas.
  - Shield personnel to protect from venting or rupturing containers. Water spray may be useful in cooling equipment exposed to heat and flame.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures:
- Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment including self-contained breathing apparatus. Refer to Section 8, EXPOSURE CONTROLS AND PERSONAL PROTECTION, for additional information on acceptable personal protective equipment.

Environmental precautions:
- Ensure spilled product does not enter drains, sewers, waterways, or confined spaces.
- Discharge into the environment must be avoided.

Methods and material for containment and cleaning up:
- Ventilate the area. Remove all sources of ignition. Stop leak if you can do so without risk. Use non-sparking tools and explosion-proof equipment. Isolate the area until all gas has dispersed.

Special spill response procedures:
- If a spill/release in excess of the EPA reportable quantity is made into the environment, immediately notify the national response center in the United States (phone: 1-800-424-8802). US CERCLA Reportable quantity (RQ): None reported.

SECTION 7. HANDLING AND STORAGE

Precautions for safe handling:
- Flammable gas. Simple asphyxiant - this product does not contain oxygen and may cause asphyxia in confined spaces. Wear protective equipment during handling. Use in a well-ventilated area. Do not breathe gas. Avoid contact with skin and eyes. Keep away from heat and sources of ignition. Use only non-sparking tools with this material. Do not puncture or incinerate containers. Ground all equipment during handling. Keep away from oxidizing agents.

Conditions for safe storage:
- Store in a cool, dry, well ventilated area, away from heat and ignition sources. Keep away from incompatibles. Storage area should be clearly identified, clear of obstruction and accessible only to trained and authorized personnel. Inspect periodically for damage or leaks. No smoking in the area. Protect from sunlight.

Incompatible materials:
- Strong oxidizing agents; Alkenes; Metal salts; halogens; Acids; Nitrogen oxides (NOx).
SAFETY DATA SHEET

SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

<table>
<thead>
<tr>
<th>Chemical Name</th>
<th>ACGIH TLV</th>
<th>OSHA PEL</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>TWA</td>
<td>STEL</td>
</tr>
<tr>

<td>N/Av</td>
</tr>
</tbody>
</table>

Exposure controls

Ventilation and engineering measures
- Use only in well-ventilated areas. Provide sufficient ventilation to keep vapour concentration below the given TLV and/or PEL. Local exhaust is preferable.

Respiratory protection
- If the TLV is exceeded, a NIOSH/MSHA-approved respirator is advised. Advice should be sought from respiratory protection specialists.

Skin protection
- Thermally insulated protective gloves must be worn during use. Advice should be sought from glove suppliers.

Eye / face protection
- Use chemical goggles and face shield when contact with product is possible.

Other protective equipment
- Wear resistant clothing and boots. An eyewash station and safety shower should be made available in the immediate working area.

General hygiene considerations
- Avoid breathing gas. Avoid contact with skin, eyes and clothing. Do not eat, drink, smoke or use cosmetics while working with this product. Upon completion of work, wash hands before eating, drinking, smoking or use of toilet facilities.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance
- Colourless gas.

Odour
- Mildly olefinic odor.

Odour threshold
- N/Av

pH
- N/Ap

Melting Point/Freezing point
- N/Av

Initial boiling point and boiling range
- - 6.25°C (20.75°F) (1-Butene)

Flash point
- - 108°C (~ 162°F)

Flashpoint (Method)
- N/Av

Evaporation rate (BuAe = 1)
- N/Av (gas)

Flammability (solid, gas)
- Extremely flammable gas

Lower flammable limit (% by vol.)
- 1.4% (Propylene)

Upper flammable limit (% by vol.)
- 10% (1-Butene)

Oxidizing properties
- None known.

Explosive properties
- Not explosive

Vapour pressure
- 676 kPa (96 psig) (6.62 bar) @ 21.1°C (70°F)

Vapour density
- > 1.5

Relative density / Specific gravity
- 0.5541

Solubility in water
- Practically insoluble (< 0.1% @ 21.1°C / 70°F)
SAFETY DATA SHEET

Other solubility(ies) : N/Av
Partition coefficient: n-octanol/water or Coefficient of water/oil distribution : N/Av
Auto-ignition temperature : 385°C (725°F) (1-Butene)
Decomposition temperature : N/Av
Viscosity : N/Av
Volatile (% by weight) : N/Av
Volatile organic Compounds (VOC's) : N/Av
Absolute pressure of container : 1800 kPa (18 bar) @ 50°C (122°F)
Flame projection length : N/Av
Other physical/chemical comments : Critical temperature 91.8°C (Propylene); 146.4°C (1-Butene)

SECTION 10. STABILITY AND REACTIVITY

Reactivity : Not expected to be reactive.
Chemical stability : Stable under the recommended storage and handling conditions prescribed.
Possibility of hazardous reactions : May polymerize on contact with catalysts, at elevated temperatures and pressure.
Conditions to avoid : Keep this product away from heat, sparks, flame, and other sources of ignition (e.g. pilot lights, electric motors, static electricity). Avoid contact with incompatible materials. Keep away from direct sunlight. Do not use in areas without adequate ventilation.
Incompatible materials : Strong oxidizing agents; Alkenes; Metal salts; halogens; Acids; Nitrogen oxides.
Hazardous decomposition products : None known, refer to hazardous combustion products in Section 5.

SECTION 11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure:

Routes of entry inhalation : YES
Routes of entry skin & eye : YES
Routes of entry Ingestion : NO
Routes of exposure skin absorption : NO

Potential Health Effects:

Signs and symptoms of short-term (acute) exposure

Sign and symptoms Inhalation : Excessive inhalation of vapours can cause nasal and respiratory irritation, dizziness, weakness, fatigue, nausea, headache, possible unconsciousness, and even asphyxiation. Asphyxiant, can replace oxygen in confined area. In extremely high concentrations, product may act as an asphyxiant and cause increased breathing and pulse rates, fatigue and unconsciousness.

Sign and symptoms ingestion : Not an expected route of entry under normal conditions of use.

Sign and symptoms skin : Not an irritant. Contact with liquid may cause frostbite. Symptoms of frostbite may include numbness, pricking and itching.

Sign and symptoms eyes : Gas may cause mild irritation. Causes frostbite burns to eyes.
SAFETY DATA SHEET

Potential Chronic Health Effects:
- Prolonged exposure may cause nasal irritation. Repeated or prolonged exposure may result in kidney effects.

Mutagenicity:
- Contains: Propylene. There is some very limited information that Propylene may cause mutagenic effects, based on animal data.

Carcinogenicity:
- No components are listed as carcinogens by ACGIH, IARC, OSHA or NTP.

Reproductive effects & Teratogenicity:
- Not expected to have other reproductive effects.

Sensitization to material:
- Not expected to be a skin or respiratory sensitizer.

Specific target organ effects:
- Lungs, eyes, skin, central nervous system.

Medical conditions aggravated by overexposure:
- Pre-existing skin, eye, respiratory and central nervous system disorders.

Synergistic materials:
- Not available.

Toxicological data:
- There is no available data for the product itself, only for the ingredients. See below for individual ingredient acute toxicity data.

**Persistence and degradability**

- No data is available on the product itself. Contains: Propylene; 1-Butene.
- Propylene and 1-Butene are expected to be degradable.

**Bioaccumulation potential**

- No data is available on the product itself. Contains: Propylene; 1-Butene.

**Components**

<td></td>
</tr>
</tbody>
</table>

**Mobility in soil**

- No data is available on the product itself.

**Other Adverse Environmental effects**

- Contains: Propylene; 1-Butene.
- Because of the relatively short half-lives of propylene and 1-Butene in the atmosphere and the low environmental concentrations typically found, their contribution to potential global warming can be considered minor. The ozone depletion potential of these substances is negligible.

**SECTION 13. DISPOSAL CONSIDERATIONS**

**Handling for Disposal**

- Handle waste according to recommendations in Section 7.

**Methods of Disposal**

- Dispose in accordance with all applicable federal, state, provincial and local regulations.

**RCRA**

- If this product, as supplied, becomes a waste in the United States, it may meet the criteria of a hazardous waste as defined under RCRA, Title 40 CFR 261. It is the responsibility of the waste generator to determine the proper waste identification and disposal method. For disposal of unused or waste material, check with local, state and federal environmental agencies.

**Special precautions for user**: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources - No smoking.

**Environmental hazards**: This product does not meet the criteria for an environmentally hazardous mixture, according to the IMDG Code. See ECOLOGICAL INFORMATION, Section 12.

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code**: Not available.

### SECTION 15 - REGULATORY INFORMATION

#### US Federal Information:

Components listed below are present on the following U.S. Federal chemical lists:

<table>
<thead>
<tr>
<th>Ingredients</th>
<th>CAS #</th>

SAFETY DATA SHEET

SARA TITLE III: Sec. 311 and 312, SDS Requirements, 40 CFR 370 Hazard Classes: Flammable gas; Fire Hazard; Gas Under Pressure.
Under SARA Sections 311 and 312, the EPA has established threshold quantities for the reporting of hazardous chemicals. The current thresholds are 500 pounds or the threshold planning quantity (TPQ), whichever is lower, for extremely hazardous substances and 10,000 pounds for all other hazardous chemicals.

US State Right to Know Laws:
The following chemicals are specifically listed by individual States:

<table>
<thead>
<tr>
