Re: Approval of AC100+ Gold

Dear Mr. Schutz:

We have completed our evaluation of AC100+ Gold. The product appears to meet our latest specification 907-714.11.7, Commercial Grout for Anchoring Doweled Tie Bars in Concrete, and will be placed on our Approved Products List under the category "Epoxy Anchors (Concrete Pavement Repair)". In order to remain on the Approved Products List, the product must continue to meet current specifications, perform satisfactorily in the field, and be recertified every four years. If the manufacturer alters the material in any way the Department must be notified and the material re-evaluated. You should also notify this office within 30 days of any change of address. If you fail to comply with this policy, your products may be removed from the Approved Products List.

The Approved Products List has been updated to include AC100+ Gold. The Approved Products List may be found on the internet at www.gomdot.com, by clicking Business, Division Resources, Materials, and Approved Products.

Thank you for contacting us about your product. If I may be of further assistance please contact me at (601) 359-1773.

Sincerely,

Alan Kegley
Assistant Field Operations EIT
