Bob Antoinette, PE  
SR Project Engineer  
DEWALT  
701 East Joppa Road  
Towson, MD 21286

Subject: Appendixes A, B, C, and D of IM 491.11, Approval Update

Dear Bob:

I have reviewed your request for the approval of AC200+, a high strength acrylic grout manufactured by DEWALT. The submitted documents and test results indicate the product in compliance with the Iowa DOT IM 491.11. Based on the documentation provided and the test results reported, this product has been approved and will be added to the Iowa Materials Approved Product List Enterprise (MAPLE), Appendixes A, B, and C of IM 491.11. Based on the ICC-ES ESR-4027 Evaluation report, AC200+ will also be placed on Appendix D. To search the MAPLE, please visit <https://maple.iowadot.gov/> ..

The approval of the product may be withdrawn any time because of deficient test result, product change, or unsatisfactory field performance. Please feel free to contact me if you have any questions.

Sincerely,

Todd Hanson  
Concrete Materials Engineer  
Construction and Materials Bureau
