RE: NDOT QPL inclusion for Pure220+

Dear Mr. Antoinette,

Nevada Department of Transportation (NDOT) has reviewed DeWalt's application for the **Pure220+** product for potential inclusion on our Qualified Products List (QPL) under category 728.03.02 EPOXY RESIN ADHESIVE FOR BONDING. Pure220+ has been found to meet current NDOT's acceptance criteria and was added to the QPL today.

NDOT must emphasize that this QPL is only used to pre-qualify products. Product approval should not be construed as a performance guaranty nor is it intended as an endorsement by NDOT. Your product will remain on the QPL as long as its performance is satisfactory. Poor performance in the field will result in suspension or removal from the QPL as per established NDOT product evaluation procedures. ***NDOT evaluation procedures further require that any modification of this product or a change in manufacturer's name and address should be conveyed to the NDOT Research Division in a timely manner (defined as 30 days from action).*** Failure to disclose this information may result in suspension of this approval or removal from the QPL. Additionally, failure to respond to the annual update of your QPL information will result in suspension of this approval or removal from the QPL.

For your convenience, a copy of the relevant QPL page is enclosed. You may locate the current version of the NDOT QPL at any time on our website at: <https://www.dot.nv.gov/doing-business/about-ndot/ndot-divisions/planning/research/qualified-products-list>. Should you have any questions regarding this listing please contact me at [alandrith@dot.nv.gov](mailto:alandrith@dot.nv.gov).

Sincerely,

*Amber Landrith*
