

Fasteners

Anchors, expansion shields, concrete inserts, explosive-driven fasteners and threaded head screws provide anchorage to building structural members for supporting pipe hangers. See PIPE HANGER listing for other components and minimum rod sizes. Unless specifically noted in the listing, the following fasteners are FM Approved for vertical installation only.

Concrete Inserts

Concrete inserts provide anchorage to concrete building structures for supporting pipe hangers. Concrete inserts must be installed when the building is constructed.

Concrete Inserts

Product Specification

Model No	Series	Description	Hanger Rod Size, in (mm)	Nominal Pipe Size		Remarks
				in	(mm)	
07542-PWR	BANG-IT +	Concrete over steel deck	3/8	3/4 through 4	(20 through 100)
